4GB / Space Grey

Ctroniq N14B Notebook delivers a reliable daily computing experience. It has a compact & lightweight construction which makes it easy for you to store it in backpack or simply carry it a sleeve.

Driven by an Intel Cherry Trail-T3 Z8350 Quad-Core processor and holding an internal storage capacity of 32GB and a RAM of 4GB the Ctroniq N14B allows for effortless browsing and multi-tasking capabilities within the confines of your home and office space or while on the go.

The 14-inch HD Anti-Glare Display with 1366 x 768 px resolution offers vivid and realistic images with outstanding clarity and the Ctroniq N14B laptop runs on Windows 10 operating system that is renowned for its fluid user interface.

This laptop is equipped with a powerful battery that delivers a video playback time of up to 6 hours and houses a 0.3MP front camera to give you a high-quality video calling experience, so you always stay in touch with you loved ones.

The Ctroniq N14B is available in an elegant space grey finish rendering a sophisticated look everyone fancies.
