

N14s

PORTABLE NOTEBOOK

Ctroniq N14s notebook features a high-performance Quad-Core CPU to give you an incredible performance. The Ctroniq N14s Notebook packs some of the most powerful yet energy efficient hardware elements into a flyweight design so that your on-the-go computing becomes more fun and less hassle. It weighs only 1.40kg and fits perfectly in your bag, making sure it doesn't drag you down. The front cam offers glitch-free video calling experience while the 802.11a/b/g/n WiFi connectivity keeps you connected wirelessly. The 14inch display of this Ctroniq notebook completes your multimedia fix by producing vibrant colors on the screen. Plus, authentic stereo sounds and provide an immersive audio experience. So watch movies, enjoy your favorite live-streaming sports, indulge in random funny videos on social networking sites, and listen to your favorite playlist with utmost audiovisual quality. This Ctroniq N14s Intel notebook incorporates a 10000mAh high-caliber battery that offers you up to 8 hours of uptime on a single full charge. Powered by a 1.44GHz, Intel CherryTrail-T3 Quad-Core CPU, this Ctroniq notebook delivers high performance while maintaining great energy efficiency. The 2GB RAM and preloaded Windows 10 OS have been optimized to give you a superior on-the-go computing experience. Available in a silver finish, this Ctroniq notebook features a mini-HDMI port so that you can connect it to a compliant display and enjoy your content on a big screen.
